

# GRAPE VINE NURSERY.

D. S. MARVIN, Proprietor, - - - - - Watertown, N. Y.

*It is now an acknowledged, agricultural fact, that vines grown in this Northern climate are more healthy and free from disease, than those grown in warmer latitudes.*

I can supply most of the foregoing older sorts of this age. Vines for cold climates and amateurs are also specialties. Give me a list of what you want and write for prices. I do not intend to be undersold when the quality of my vines is considered. Good No. 2 vines at less rates.

Amateur lists, four varieties to the dozen, at dozen rates. Vines packed in moss to go safely any distance, 50 at 100; 100 at 1000 rates. I have many varieties not on this list.

A Liberal Discount on Cash Orders over \$20.00.

The season has been propitious, and my vines are very strong. I have Imperial and other Iron clad apples and a fine lot of pear trees, of my own growing.
